| <i>Co-Founder/Web Programmer</i> | <i>November, 2015 - Present</i> |

Staying on campus for a full year, my fellow peers and I took the initiative by getting involved on campus by successfully running a startup. By constructing a webpage from scratch using HTML, CSS, PHP, and JavaScript, I have helped create a convenient, user-friendly interface to validate student requests and act upon them accordingly. Using the many resources found on campus, such as Kelley Ads and IU Marketing Department, we have further spread our service campus wide, and our goal is to be available to every student on campus by Fall 2016.
